Professor of Oriental Languages,  
Deccan College,  
To K. M. CHATFIELD, Esq.,  
Director of Public Instruction,  
Bombay

*Deccan College, 2nd May 1881*

SIR,

I have the honour to submit my report on the search for Sanskrit Manuscripts during the year 1880-81

2 Up to the middle of September the work in connection with the search for MSS was divided between Dr Buhler and myself, after Dr Buhler's departure the whole work in both the Northern and the Southern Circles of the Presidency and the territories attached to it was entrusted to me. I have also had charge of all the MSS, collected by order of the Government of India since 1868, which are deposited in the Library of the Deccan College

3 The work done during the year may be considered under the following heads —

- 1 The collection of information regarding the existence of ancient Libraries, and the search for particular books
- 2 The preparation of rough lists or of detailed catalogues, of Libraries likely to contain old or rare MSS
- 3 The purchase of MSS for the Government collection

To this may be added —

- 4 A statement of the total number of MSS hitherto collected and of the use made of them by different scholars

- 4 The first part of the work has been chiefly entrusted to

native agency Dr Buhler left

- 1 Collect on of information regarding Libraries India before the commencement of the travelling season, and I

have been prevented by my duties in the College and by the work of cataloguing the numerous MSS acquired during the year from leaving Poona during the cold weather The main result of such inquiries as I was able to make by letter has been the discovery in the Southern Circle of four ancient Jain Libraries which contain a large number of paper and palm-leaf MSS In the Northern Circle the native agents employed have made six tours They were specially directed to acquire ancient palm leaf MSS and to search for works of the Maitrayaniya Sakha of the Yajurveda and of the Paippalada Sakha of the Atharvaveda For the former purpose they again went to Cambay and Pathan (Anhilwâd), where this time their labours were very successful and in carrying out the orders for the search of Vedic books they travelled through the districts of Surat Broach Kaira the Gaikwari territory and Kathiawar Their endeavours to procure MSS of the Paippalada Sakha were fruitless but they succeeded in procuring a considerable number of works of the Saunaka Sakha of the Atharvaveda and of the Maitrayaniya Sakha

- 5 With the assistance of a former pupil Mr Paranjpe

who is now a Professor in the

- 2 Preparation of lists and catalogues Kolapur College I have obtained

rough lists of the MSS in two

of the Jain Libraries mentioned in the preceding paragraph Of works which would interest Sanskrit scholars generally these lists mention hardly any besides the *Sakatyana* and *Jainendra vyakaras* but they give the titles of many Jain

works which have not yet been met with elsewhere, and it has therefore been considered advisable to arrange for the preparation of accurate catalogues of the contents of these two as well as of the two other libraries which have been discovered. The palm leaf MSS in these Southern collections and some of their paper MSS are written in the Canarese character.

6 In the Northern Circle catalogues were prepared, under the supervision of Dr. Bühler, of a small private Library and of the large Samghavi Bhandar at Pathan. Both these Libraries contain only palm leaf MSS the former 89, and the latter 527. Of the MSS of the smaller Library 26 are dated, the oldest Samvat 1186 and the latest Samvat 1456, 22 of the dated MSS were written between A.D. 1150 and 1300, one before and three later. Of the 527 MSS of the Samghavi Bhandar 143 are dated, of these the oldest bears the date Samvat 1120, and the latest the date Samvat 1505. The number of those written during the 14th century of the Christian era (more accurately between A.D. 1290 and 1390) is surprisingly small, a fact which probably may be accounted for by the unsettled state of the country after the fall of Anhilwād in A.D. 1297.

7 However valuable these two collections may be for researches regarding the Jain religion and literature and for the history of Gujarat, it is a matter for regret that among the old MSS which they contain only the following (the titles of which are given from the MS list) are likely to interest Sanskrit scholars generally —

1. *Anekīrthasamuchchaya* by ŚĀSVATA 93 ll., Samvat 1240 (copied for Government)
2. *Alamkāra-rīti*, 305 ll., incomplete.
3. *Unādisūtra-rīti* by HEMACHANDRA, 155 ll.
4. *Katantra-rīti-vi arana* by TRILOCHANADĀSA, 288 ll.
5. *Kaṣṭhādarśa* by DANDIN, 49 ll., incomplete, Samvat 1190
6. *Kāvyalamkāra* by VĀMAṆA, 36 ll.
7. *Gauda-adhakaṣya*, 110 ll., Samvat 1286

8 The catalogue of the palm leaf MSS in Santinath's Bhandār at Cambay mentioned in last year's report, has owing to objections raised by the proprietors not yet been completed

9 The total number of MSS purchased during the year is 413 of these 336 are paper  
3 Purchase of MSS and 77 palm leaf MSS Of the paper MSS 229 were collected by Dr Buhler and 107 by myself Of the 77 palm leaf MSS two (Nos 26 and

72) were obtained for Dr. Buhler at Cambay, the remaining 75 come from Pathan (Anhilwād), and were purchased by me for Government between December and March last.

10 A description of the palm leaf MSS, as accurate and full as I could make it in the short time at my disposal, is appended to this report. Here I have only to add a few general remarks. The first point which will strike any one who may examine this collection is the great age of the MSS, which it contains. It is well known that few Sanskrit MSS in public Libraries are older than two or three hundred years. The oldest of these palm leaf MSS, the date of which is absolutely certain,\* was written exactly 800 years ago, and I may state in general that all the MSS collected were written during the 11th, 12th and 13th centuries. 20 of the MSS are dated, and the dates given by the writers are —

No 57 Samvat 1138 = A D 1081.

Nos 35 and 36 Samvat 1145 and 46 = A.D 1088 and 89, during the reign of Karnadeva

No 53 Samvat 1176 = A D 1119

Nos 41—43 Samvat 1179 = A D 1122, during the reign of Jayasingha

No 58 Samvat 119—(?) = between A.D 1133 and 42

No 13 Samvat 1218 = A D 1161, during the reign of Kumârapâla

No. 8 Samvat 1264 (?) = A D 1207 (?), during the reign of Bhîmadeva II

No 38 Samvat 1294 = A D 1237

No 47 Samvat 1300 = A D 1243

No 28 Samvat 1304 = A D 1247.

No 62. Samvat 1315 = A D 1258

No 3 Samvat 1332 = A D 1275

---

\* The MS No 7 seems to have been written in Samvat (?) 962, but I cannot be perfectly certain about this, because the last leaf of the MS is much damaged and the writing on it effaced (See below page 9)

No 60 Samvat 1340 = A D 1283

Nos 2 and 5 Samvat 1342 = A D 1285

No 34 Kaliyuga 4398 = A D 1297 during the reign  
of R'unachandradeva

No 37 Samvat 1359 = A D 1302

11 But the age of the palm leaf MSS is proved, not merely by these dates but also by the interesting fact that in nearly all of them the leaves in addition to being numbered on the right hand side with the ordinary numeral figures now in use are also numbered on the left hand side with the more ancient numerals which have been described by Pandit Bhagvanlāl Indrajī in the Indian Antiquary vol VI page 42. The principal of this more ancient system of numeration is this that separate signs are used for the numerals from 1 to 9 separate signs for 10 20 30 &c, up to 90 and separate signs again for the numerals 100 200 300, &c and that in combining these signs those for 10 20 30 &c are placed above those for 1 2 3 &c and those for 100 200 300 &c, above those for 10 20 30 &c. *L g* 281 is denoted by  $\begin{matrix} \text{ॐ} \\ \text{ॐ} \\ १ \end{matrix}$

where ॐ is the sign for 200 ॐ the sign for 80 and १ the sign for 1 199 by  $\begin{matrix} \text{ॐ} \\ \text{ॐ} \\ ३ \end{matrix}$  where ॐ is 100 ॐ 90 and ३ 9 140

by  $\begin{matrix} \text{ॐ} \\ \text{ॐ} \\ ० \end{matrix}$  where ॐ is 40 101 by  $\begin{matrix} \text{ॐ} \\ १ \end{matrix}$  &c To my knowledge, this system of numeration by means of letters or syllables is never employed in any paper MSS and there are indications that it had ceased to be understood even when these palm leaf MSS were being written

12 In the MSS examined by me the forms of some of these ancient numerals slightly differ from those copied by Pandit Bhagvanlāl from two Jain MSS

The numerals 1, 2, and 3 are denoted by the ordinary numeral figures १, २, and ३

The sign for 4 is ष, or ष, or (in Nos 20 and 21) ष. As ष has been supposed to be the *Ṣiṛāmāliya* plus *ka*, I may state that in No 61 where that sign is used for 4, the *Ṣiṛāmāliya* + *ka* are denoted by the ordinary sign ष

The sign for 5 is everywhere like the ordinary Devanāgarī ५, or (very rarely) ५

The sign for 6 corresponds generally to ६, sometimes we find ६, or ६, or (very rarely) ६ or ६

The sign for 7 is either ७ or ७

The sign for 8 is either ८ or ८, or very rarely ८

The sign for 9 is generally the old sign for ९, but in one or two MSS the Anusvāra is omitted. The principal forms occurring in the MSS examined are ९, ९, ९, ९ and ९. That the sign for 9 is nothing but the syllable ९, is clear also from the fact that many Sanskrit MSS begin with what looks like ९, but is really the word ९. In most MSS ९ is repeated after the sign ९, because the meaning of the latter had ceased to be understood

The sign for 10 is १० or, more rarely, १०

The sign for 20 is २० or २०, or rarely २० or २०

The sign for 30 is ३० or ३०

The sign for 40 is ४० or, rarely, ४० or ४० or ४०

The numeral 50 is denoted by the sign ५० or ५०

The signs for 60 and 70 are ६० or ६०, and ७० or ७०

The sign for 80 is ८० or ८० or, very rarely, ८०, in No 61, where the first sign is used, the same sign is used for the *Upadhmānīya*

The sign for 90 is ९० or, very rarely, ९०

The sign for 100 is १००, for 200 २००, for 300 ३००, and for 400 ४००

13 Some variations from the above are owing to the ignorance or carelessness of the writers. In No 66 the sign ९ is used for 50, and ५ for 80. In No 3 the three first leaves

are numbered स्व, स्ति, and श्री, in No 7, 20, and 32, simply  
<sup>१ २ ३</sup>  
 स्व, स्ति, and श्री, without the addition of १, २ and ३, in No 24  
 the numerals 1, 2, and 3 are *throughout* denoted by स्व, स्ति,  
 and श्री, e.g. य is 21, य 22, and य 23. In No 19 the leaves  
<sup>स्व स्ति श्री</sup>  
 4 to 9 are correctly marked with the signs given in the preced-  
 ing paragraph, but on the later leaves the same numerals are  
 denoted by the ordinary numeral figures ४, ५, ६ etc. e.g. 67 is  
 ६७, 109 सु, 138 सु &c  
<sup>७ ८ ९</sup>

Finally it deserves to be stated that in some cases those  
 leaves of a MS which happen to be more modern than the  
*rest of the MS* are numbered only with the ordinary numerals  
 For details see the list of the MSS Nos 4, 26, 38, &c

14 Notwithstanding their great age many of these  
 palm leaf MSS are exceedingly well preserved, and I feel no  
 hesitation in saying that, with reasonable precautions, they  
 will last as long again as they have lasted already. The state  
 in which the MSS were made over to me did certainly not  
 indicate that any particular care had been bestowed on their  
 preservation, yet in most cases the material of which they  
 consist shows no signs of decay, and the writing is as clear  
 and distinct as in the best modern paper MSS. These facts  
 tend to disprove the generally prevailing notion that MSS.  
 in India will not last beyond a few centuries, and give rise to  
 the hope that we may yet discover in the old libraries of this  
 country MSS far more ancient than those which have been  
 obtained already

When the MSS were first brought to me they formed  
 huge bundles of palm leaves, in which frequently the leaves  
 of one MS were mixed up with those of one or more other  
 MSS. I have myself examined every single leaf, have with the  
 help of my assistants put together what belongs together, and  
 have had the leaves of each MS. put between wooden boards,  
 so as to ensure their preservation and to facilitate their being  
 used by other scholars

15 As I have read portions of every MS, I am able to state that nearly all of them have been written with care and are very correct. From the remarks which occur at the end of some MSS it may be inferred that the copyists were well paid and that as long as four or five hundred years ago palm leaf MSS were valuable possessions. Of the MSS in this collection Nos 2 and 5 were purchased in A D 1344 for a large sum of money by a certain Mohan and presented by him for the spiritual welfare of his mother to the sage Jinālabdhī suri and No 58 was copied at the expense of a lady and presented by her to the sage Devabhadra. A similar story appears to be told at the end of No 60.

16 The short account of the palm leaf MSS given below will I trust enable others to judge for themselves of their value. I am aware that the collection will chiefly interest those who specially devote themselves to the elucidation of the history of the Jain religion and literature at the same time I believe that Sanskrit scholars generally will find in it some interesting works which hitherto were either altogether unknown or of which only very modern or incorrect or imperfect copies were accessible.

17 The 336 paper MSS acquired during the year may be classified thus —

1	Veda Samhita Brāhmaṇa and Sūtra	31 MSS
2	Vedāṅga Upanishads Prayogas and similar tracts	117
3	Purāṇa and Mahātmya	12
4	Poems Plays and Fables	32
5	Grammars and Glossaries	30
6	Poetics and Metrics	5
7	Philosophy	20
8	Dharma	17
9	Astronomy and Astrology	7
10	Medicine	1
11	Technical books	7
12	Mantra tantra works	3
13	Jain works not included in the preceding	54

The titles of the works which these MSS contain and the names of their authors the number of leaves of each MS and its extent in Slokas, and the dates of those MSS which are dated are given below

18 The number of MSS belonging to the Government collection which are now under my charge amounts to 2904. 35 of these contain works in Kāśmīrī, Hindī and Persian, about one thousand are Jain, and the rest Brahminical MSS 81 are palm-leaf MSS, 68 on Bhurjapattra, and the rest on paper.

19 In addition to the MSS used by myself, 99 MSS are on loan with different scholars in Europe and in India

The scholars in Europe to whom MSS have been lent are —

Professor Aufrecht, Bonn

Mons Barth, Paris

Professor Buhler, Vienna

Professor Delbruck, Jena.

Professor Eggeling, Edinburgh

Professor Goldschmidt, Strassburg

Professor Jacobi, Munster

Professor Jolly, Wurzburg

Dr. Klatt, Berlin

Professor Muller, Oxford

Professor Roth, Tübingen

Dr von Schroder, Jena

Dr Zachariae, Greifswald.

The scholars in India are —

Professor Bhandarkar, Bombay.

Dr. Hoernle, Calcutta.

Dr. Kunte, Bombay

The Hon ble V. N. Mandlik, Bombay.

Rao Saheb S. P. Pandit, Bombay

Professor Paranjpe, Kolapur.

Professor Peterson, Bombay

Dr. Rājendralāl Mitra, Calcutta

Dr. Thibaut, Benares

Mr. Vamanāchārya, Poona

20 I append to this report (A) a description of the palm-leaf MSS, and (B) a classified list of the paper MSS acquired during the year. As Government desire this report to be submitted at an early date, my remarks on the MSS are necessarily short, but they will, I trust, suffice to enable other scholars to identify the works contained in the collection. As I consider the palm-leaf MSS to be of very great value, I have endeavoured to describe the state each MS is in as accurately as possible. I have also copied all statements regarding the authors of the different works and the writers by whom the MSS were written, and any other interesting details concerning the history or former possessors of particular MSS. In reproducing these remarks I have strictly adhered to the readings of the originals before me, and have abstained from correcting even the most palpable blunders.—In an Appendix I give a list of the MSS collected during the year 1873-74, which has not yet been submitted to Government. A catalogue of the MSS purchased by Dr. Bühler in 1879-80 is in preparation, and will be published together with the report for the current year.

21 The total expenditure on account of the search for MSS. during the year 1880-81 is Rs 6,728 7 9. Dr. Bühler's as well my own accounts have been rendered to the Accountant General.

22 In concluding this report I venture to express my hope that the results attained during the year will be consi-

dered to *compare favourably with those of former years*  
 That many old and valuable works have been added to the  
 Government collection is a piece of good fortune but I may  
 say for myself that during the last five months I have devoted  
 all my spare time to the task of properly arranging and  
 cataloguing the MSS collected so as to render them easy of  
 access and useful to my fellow students

I have the honour to be

Sir,

Your most obedient servant,

F KIELHORN,

Leaf 183 is followed by two leaves in a different handwriting which give the contents of the several *Sargas*.

This poem, composed by Hemachandra in honour of his patron Kum'rapala, is also called *Śabdānusāsana-dvyāsraya-mahākāvya*, or simply *Dvyāsraya mahākāvya*. Its primary object is to illustrate the rules of Hemachandra's own Sanskrit grammar, and some MSS indicate therefore not merely the end of each *Sarga*, but also that of each *Pada* of the *Śabdānusāsan*. The Palm leaf MS does this, so far as I have observed only occasionally. Other MSS give names to each *Sarga*, e.g. अणहिलपत्तनश्रीमूलराजयोर्वर्णनो नाम प्रथमः सर्गः, प्रभातमन्त्रवर्णनो नाम द्वितीयः सर्गः etc

The following are the first five verses of the poem, taken from a paper MS

302 leaves a few of which are broken and damaged The MS appears to have been written at different times and by two different writers In what I consider to be the older portion, the writing is smaller and the leaves are numbered with the numeral figures on the right and with letters on the left hand side, the leaves also are slightly narrower, in the more

modern portion the writing is bigger and the leaves are numbered with the numeral figures on both the right and left hand sides. Each page is divided into three columns.

Want of time has hitherto prevented me from examining this work as carefully as I should wish to do Besides I am in hopes of obtaining additional MSS of it, for which a search is being made The instances अनुशासनयन वैयाकरणाः and इति-शासनयनम् on Foll 96b and 118b, as well as certain technical terms would seem to show that the work is closely related to the grammar of Sakatājana.

The instance अहह्वरातीन्द्रकुमारपालः on Fol 255b proves that the work was composed in the reign of Kumārāpāla, between 1143 and 1174 A.D.
